

**DESCRIPTION**

The work shall consist of the construction of a temporary pavement for pedestrian or vehicular traffic as shown on the plans and as directed by the ENGINEER.

**MATERIALS**

Any of the following materials may be used.

- A. Asphalt concrete - Type 3 binder course conforming to NYSDOT Section 403.
- B. Recycled asphalt binder course conforming to Section R404
- C. Recycled asphalt top course conforming to Section R404
- D. Asphalt cold patch

**CONSTRUCTION DETAILS**

A temporary pavement shall be provided where ordered by the ENGINEER to accommodate vehicular or pedestrian traffic with 24 hours after written notice by the ENGINEER. The temporary pavement shall be kept reasonably smooth and hard at all times, shall be well drained, free of potholes, bumps, irregularities, and depressions. The necessary equipment and personnel to attain and maintain a satisfactory riding surface shall be available and used as needed, at all times. Special attention to maintenance of the temporary pavement shall be given during weekends, holidays, and during the winter season.

The specified asphalt material shall be placed in accordance with the appropriate construction details as outlined in NYSDOT Section 403 and Section R404.

Asphalt cold patch shall be placed only when hot mix asphalt is not available due to weather restrictions or as directed by the ENGINEER.

Upon completion of the period that the temporary pavement will be required, the asphalt material and subbase course shall be removed and disposed of in accordance with the appropriate construction details.

**METHOD OF MEASUREMENT**

The quantity to be measured for payment shall be the number of square meters of temporary pavement installed and removed.

**BASIS OF PAYMENT**

The unit price bid per square meter shall include the cost of: furnishing and placing asphalt material; maintaining the temporary pavement; furnishing and placing additional material to maintain a smooth riding surface; removing and disposing of the asphalt; and furnishing all labor, material and equipment necessary to complete the work.
